Physicians orders solicited.
Pure Wines and Liquors for Medicinal purpos-

THE GREATEST ADVANCE STEP EVER THE GREATEST ADVANCE STATE EVEN MADE IN THE ART.

The main difficulty in wearing artificial teeth is, they do not hold in their place firmly enough, and add to this the annoyance of food getting under the plate while cating. I have discovered a method of so constructing the plate on which the teeth are set that they will not start any particles of food get under the plate, no matter what the condition of the mouth is, which is not true of any method hithertensed.

I have secured Letters Patent for the United States Forday, and Parket States States Forday, and Parket States Stat

States, England and France.

The improvement is not in material but in the construction, which secures the atmospheric

Pressure on the entire plate.

I have sold the exclusive of said improvement to Dr. L. Gilman, to wit, the Counties of Frank-in, Washington, Chittenden, Lamoille and Grand Isle. Those wishing to avail themselves of such improvement, will call on

Dr. L. GILMAN, ST. ALBANS.

November, 11, 1867.

HAIR RESTORER FAVORITE HAIR DRESSING NewStyle in oneBottle

will quickly restore Gray Hair to its natural color and beauty, and produce luxuriant growth. It is perfectly harmless, and is preferred over every other preparation by those who have a fine head of hair, as well as those who wish to restore it. The beautiful gloss and perfume imparted to the Hair make it desirable for old and young.

The attention of Town Superintendent Teachers, and others interested in the cause of popular education in the State of Vermont is called to Section 2, Act No. 2, of the Laws o Vermont for the year 1806, which reads as fol-

Section 2.—The Board of Education are hereby authorized, and it is made their duty, of or before July 1, 1867, and on or before said date every fifth year thereafter, to select a list of such grammars, prographics, arithmetics, his tories of this State and the United States, philosophics, algebras, readers and spellers, not exceeding one book of a kind in each branch, as they shall deem best suited for instruction and use in the district schools in this State, in each of said branches; and shall cause the list susched to be published in all the newspapers published in the State, during the month of January next following the making of such selection; and also to be inserted in each school register issued after one year from the making of such selection; which list, so selected, shall be and remain authoritative and Unding upor the Board or Education, superintendents and teachers, and during five years from and after November 1, 1868, and each five years thereafter; and superintendents and teachers shall recommend for use in the district schools, as new books shall become a crossary for instruction in the branches named, no other than the books included in said list so selected and published. books included in sain list so selected and pul-

The following is an extract from the Report of the Board of Education, for the year 1867,

Mitchell's First Lessans, Primary, and Intermediate Geographies were adopted, for these reasons, in brief; the simplicity and clearness of the text, the gradual and constant advancement from the primary truths to the higher departments of geographical knowledge, the conjunction and completeness of the definitions partments of geographical knowledge, the conciscless and completeness of the definitions,
the clegance and accuracy of the maps, the atitactiveness of the pictorial illustrations, and
the uniform method of treating topics that are
similar to each other. Since the adoption of
these backs, the publishers have taken measures to prepare a special edition of the Intermediate Geography for use in the schools of Verment. This edition will contain a new quarto
map of the State, engraved on copperplate; and
four pages of letter press and questions, relating to the geography of Vermont to be prepared by key Pliny II. White, It is believed that
this feature, while it is not to increase the cost
of the books, will materially increase its value
and the interest with which it will be studied,
McNally's Physical Geography, accompanied by
Monte ith's Lessons in Astronomy, was adopted,
to be used in those departments of the study
which are indic ted by their titles. Guyot's
Common School Geography was adopted as a Common School Geography was adopted as a Physical Geography of a grade different from McNally's.

Inasmuch as there seems to be some misaprehension as to the intention and design of the Board in recommending the different text-book in geography, it seems proper to state that i was their intention to recommend the use of Mitcheli's Geographics by all classes which have hitherto used, or which would otherwise use Cornell's, and that they did not design that Gnyot's Geographics should be used, except by papils who, having prosed through Mitchell's, lesire to advance to the study of physical geography by Gnyot's taethod.

The publishers of Mitchell's New Geographies sill send agents into every town in the State, to supply schools according to the terms annexed, and it is hoped that superintendents will furnish every facility for the speedy prosecution of the ?
